**Subject:** [External] Dominion and Solar power

Dear Commission,

I am very concerned about Dominion trying to take advantage of Solar customers by placing multiple financial barriers in the way of customers who wish to use solar from any vendor. Specifically, I would like to see more financial incentives for people to install solar panels and am against:

1. Doubling the Basic Constitution Fee for all Solar customers
2. Charging all Solar customers a flat monthly fee based on the size of their solar panel system (regardless of production).
3. Reducing the credit solar generation credit paid by 70%

Thank you for your consideration.

Phil Saul

Mount Pleasant, SC
